

1968 Wood table lamp

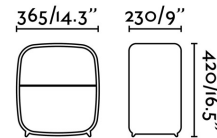

Ref. 28372

1968 is design by Jordi Busquets. Inspired by the first televisions during the 60s, this reinterpretation worships craftsmanship and the beauty of sobriety. This lamp stands out with its clean lines and the diffusion of light through the fabric shade. Made of wood and with 3D printed supports, this model combines tradition and modernity. The work of different elements end up giving shape to this designer's lamp. The light source is dimmable LED. A perfect table lamp to illuminate your home. Made in Spain
